**Building a better world,
one pipe at a time**

Introducing SBM GOLD uPVC Agri Pipes

**The Ultimate Solution for
Potable Water Distribution**

SBM GOLD high-pressure uPVC solvent weld plumbing system is revolutionizing the plumbing industry. With its technical superiority, cost-effectiveness, and numerous advantages over conventional G.I. piping systems, SBM GOLD is the most suitable, easy, and economical solution for the distribution of potable water.

Easy Installation, Unmatched Functionality

- ✓ SBM GOLD high-pressure uPVC solvent weld plumbing system is revolutionizing the plumbing industry. With its technical superiority, cost-effectiveness, and numerous advantages over conventional G.I. piping systems, SBM GOLD is the most suitable, easy, and economical solution for potable water distribution.

Approved by MCGM: A Seal of Hygienic Excellence

- ✓ SBM GOLD is a hygienic plumbing system MCGM (Municipal Corporation of Greater Mumbai) approved. This endorsement highlights its adherence to stringent quality standards and its suitability for potable water distribution. Rest assured, SBM GOLD ensures the highest level of safety and cleanliness for your water supply.

Cost-Effective and Long-Lasting

- ✓ Why settle for expensive alternatives when you can have SBM GOLD? This system is 40-50% cheaper than conventional G.I. piping systems, making it a cost-effective choice for your plumbing needs. Additionally, SBM GOLD offers an extended service life, ensuring years of reliable performance and durability. Save on installation and maintenance costs with SBM GOLD.
